

e-SMS Tool Migrated into DoD CAC-Enabled Host

The e-SMS Tool migrated to a DISA-accredited, CAC-enabled hosting environment effective Wednesday, December 14, 2022

The e-SMS Tool Suite (e-SMS Tool, Challenge Portal and ASOHMS Portal) recently migrated to a DISA-accredited, CAC-enabled hosting environment.

Please remember to update any bookmarks you have to the e-SMS Tool accordingly.

The migration enhances the security of users' data by relocating the e-SMS Tool to a DISA-accredited host behind a CAC-enabled firewall and increases the resiliency of the system by utilizing a more powerful, stable, and fault-resistant platform.
