

# Goal Driven Safety: A SMART Step Toward S&H Excellence

*Wednesday, August 21, 2024, 2:00 p.m. ET*

On 8/21/2024 at 2:00 p.m. ET, the SMCX will present a "Goal Driven Safety: A SMART Step Toward S&H Excellence" webinar.

This webinar focuses on S&H goals and objectives. It compares 'goal' and 'objective' and describes the relevance of goal setting in an SOHMS. The webinar reviews the S.M.A.R.T. (specific, measurable, achievable, relevant, time-bound) criteria and its importance in goal setting. It then reviews the application of the S.M.A.R.T. criteria to goals with examples and hands-on practice.

The webinar concludes with a question-and-answer session to address commonly asked questions related to goal setting, opens the floor for other participant questions, and provides a list of topics to consider when goal setting at your organization.

This introductory-level webinar is beneficial to personnel wanting to learn more about goal setting. Personnel gaining the most benefit from this webinar may include Safety staff, SOHMS representatives, personnel who set S&H goals, and personnel who monitor the progress of goal achievement.
